NEWSAGENCY OF THE FUTURE BEYOND 2015

Join Mark Fletcher for a look at the state of the newsagency channel, trends impacting on us, and how we can create stronger and more valuable businesses.

Current data will be shared on growth categories and insights offered on how you can embrace the future. Data will also be shared on declining categories and insights shared on how you can soften the impact.

This will be a practical workshop for newsagents who want to improve their businesses. Content will be challenging and truthful. Practical opportunities will be shared including changes you can make right away without having to join a group or deal with a specific supplier.

If you are doing it tough, not sure of future plans for your newsagency or not making what you want / need to make from your business, this would be a good workshop to attend.

Participation is FREE. The session will run for around two hours.
