COMPUTER USE POLICY

- 1. The computers in this business are business tools. Their security is vital to the safe running of the business.
- 2. Do not use any computer for any form of personal use without permission. This means:
 - a. No playing games.
 - b. No looking at porn.
 - c. No Facebook.
 - d. No downloading movies, TV shows, music.
 - e. No browsing websites unless they are websites used regularly by this business for running the business.
 - f. No connecting your phone to the computer.
- 3. Do not open emails including business emails unless you have permission.
- 4. Do not click on any link in any email unless you are 100% certain the email is from a trusted source.
- 5. Do not clear the browser cache.
- 6. Never put a USB stick in a computer unless you are certain of the source.
- 7. Never permit anyone to use a computer in the business unless you have permission.
- 8. Never give anyone a computer password from the business.
- 9. If someone you don't know calls and tells you to do something with the computer, make sure they have authority.
- 10. Never write down any business password you are entrusted with.
- 11. Never connect a USB stick with the computer unless you have permission.
- 12. If you do something wrong own up to it immediately.
